

# Why choose SiltShield?

## AESTHETICS

SiltShield's patented semi-rigid design looks clean and stays that way throughout construction.

## REDUCES COST

Old-fashioned silt fence can need replacing up to 6 times at the curb.

## ENVIRONMENTALLY RESPONSIBLE

SiltShield's advanced technology in temporary sediment containment stays up to protect the environment.

## FLEXIBILITY

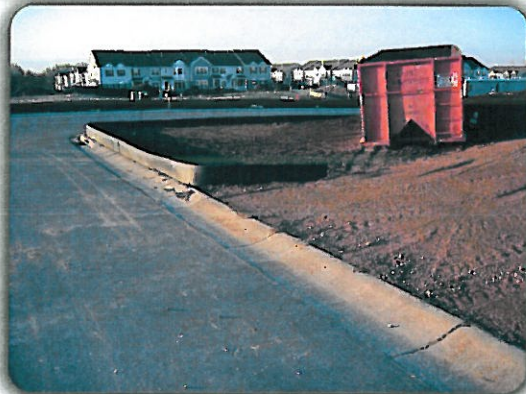

SiltShield can withstand accidental vehicle impact.

## EASY TO INSTALL

1. Remove dirt from back of curb.
2. Place SiltShield 6" or 8" below top of curb.
3. Back-fill, compact. DONE.

## REUSABLE

Installs on back of curb and stays there until final grade or sod, ready to be rolled up and used on the next project.

Soil erosion is second only to population growth as the biggest stress on our environment today
